Great Basin Incident Commander Conference Call Agenda 2017

Date: Monday, July 17, 2017

Note taker: Gina Bald

GB MAC/GACC Coordinator:

Agenda/Incident Commander Discussion Points: **Summarize the following in 4 min or less:**

- Fire Size / % contained / # of people / Cost to date
- Significant changes since the last 209
- BRIEF fire synopsis /Critical Incident Information (use **Directional** vs DIVS's)
- Political Issues / Community Meetings
- Closures / Evacuations / Public Safety Issues
- Major Safety Concerns / Injuries / Accidents
- Critical Resource Needs
- Resources Available to Reassign/Share/Demob

Predictive Services:
Nanette

Drier air will begin to make its way into the western fringe of the Great Basin on Monday, pushing storm coverage to the south and east. The focus shifts to the potential for gusty winds and low relative humidity across western and north-central Nevada. By Monday afternoon, wind gusts are expected to be in the 25 to 35 mph range, though gusts to 40 mph are possible in areas. It will also be breezy and very dry across Srn ID. This is particularly concerning due to existing fires and recent lightning followed by low relative humidity and gusty winds in an area that has high fuel loading could lead to large fire growth.

Gusty winds are expected again Tuesday across western Nevada, though speeds will diminish somewhat. Highest winds will be along the Sierra Front. As the dry air continues its eastward progression Tuesday, storm activity will be confined to far southeastern Utah and the eastern portion of the Arizona strip.

Models suggest that moisture will surge northward into the far southern end of the Great Basin on Wednesday and continue to march northward through late this coming week, bringing a return of more widespread afternoon thunderstorm activity.

GBCC Update: Gina
Dingman

- Light to Moderate IA
- 26 New fires for 1247 acres
- Large Fire Growth: 50507
- Teams: 2 T1, 1 T2 , WY T3 in staging at TWF
- Aircraft: 8 AT; 4 Scoopers; 27 SEATs, 2 LP, 12 T1 Helo, 15 T2 Helo, 26 T3 Helo: 15 available for IA
- 28 Smokejumpers across 4 Bases
- Crews: 18 T1: All committed; 32 T2IA: 1 available; 14 T2: 1 available

Appendix 7

	<ul style="list-style-type: none"> • Replenish T2 Crews in TWF and WMC today
GB MAC: Dennis Terry	Moving Crews and Aircraft from one fire to the next. Resources instantly assigned.
1 Fire: Long Valley IC: Fogle Report: Nobles (T)	77642 / 35% / 850 / \$5.1M <ul style="list-style-type: none"> • Spread to the East • North and West: Crews made good progress • Mobile Retardant Plant set up in WMC • Threats to Sutcliff. Evacuation Advisory • Closures: OHV Area • Safety Issues: Red Flag Warning, extreme Fire Behavior, steep terrain, long driving distances • Critical Needs: 5 T1 Crews timing out in the next 48 hours
2 Fire: MM155 IC: T3 Uhlig	15432 / 20% / 356 / \$1.1M <ul style="list-style-type: none"> • Completed Burnouts on SW and NE Corners • Slop out to Grass Valley. Voluntary Evacuation Order – 50 residences • Safety: Red Flag Warning for Winds, communities • Critical Needs: Keep what we have in place • Resources Available: Release IA resources back to Districts
3 Fire: Four Seasons Complex IC: Goff	146851 / 0% / 513 / \$1M <ul style="list-style-type: none"> • Comprised of Snowstorm, Cornucopia, 4 Mile • Cornucopia and 4 Mile: Contained/Control • Snowstorm: 116934 / 13% / 513 / \$947000 • Active to the East • Large Private Ranches, Midas Mine and community • Community Meeting: 1000 Conference Call • Safety Issues: Large area and remote location • Critical Needs: AT and Helo support. One more day and will be in good shape.
4 Fire: Davis IC: Garber Report: Chris Delaney	1000 estimate <ul style="list-style-type: none"> • 209 Pending • 3 significant fires in one area: Davis, Knoll, Little Valley (State) • Will burn together • Engines, Water Tender, Dozers, Resources from Water Tower • Meeting with Toole County Sheriff • Critical Needs: Dozers, Taskforce Engines, Misc. Overhead • Borrowing T1 Helo from Water Tower • Continue to use Heavy ATs
